**Packaging papers – Product portfolio**

Rotogravure Flexo Lamination with polymer films	<b>LeafKraft</b> One side coated kraft paper, calendered. Biodegradable and compostable by EN 13432 (only industrial composting). Medium gloss, free from optical brightener. Suitable for lamination with polymer films.	End use Compostable bags and wrapping applications	<b>50 g/m<sup>2</sup></b>
Rotogravure Flexo Roto offset	<b>Hi-Fi Kraft Lux</b> One side coated kraft paper, calendered, containing optical brightener. High smoothness, high gloss, excellent printability and runnability. Designed for premium flexible packaging applications.	End use Soup pouches, bags, wrappings and pharmacy pouches	<b>45/ 50/ 60/ 70 g/m<sup>2</sup></b>
Rotogravure Flexo	<b>Carlux OB</b> One side coated kraft paper, calendered, containing optical brightener. Very good smoothness and high gloss value. Also available without optical brightener. Universal use for most flexible packaging applications.	End use Soup pouches, bags, wrappings and pharmacy pouches	<b>40/ 43/ 45/ 50/ 55/ 60/ 65/ 70 g/m<sup>2</sup></b>
Rotogravure Flexo Lamination	<b>Carlid</b> One side coated kraft paper, calendered, containing optical brightener. Controlled elongation and high thermo sealing resistance. Suitable for laminated lids.	End use Yoghurt lids	<b>41/ 43/ 45 g/m<sup>2</sup></b>
Rotogravure Flexo	<b>Carcoat OB</b> One side coated kraft paper, calendered, containing optical brightener. Good smoothness and high gloss. Also available without optical brightener. Universal use for most flexible packaging applications.	End use Soup pouches, bags, wrappings and pharmacy pouches	<b>40/ 45/ 50/ 60/ 70/ 80/ 92/ 90/ 95 g/m<sup>2</sup></b>
Rotogravure Flexo	<b>Carcoat OB Extra</b> One side coated kraft paper, calendered, containing optical brightener. Good smoothness and high gloss. Suitable for high flex crack resistant flexible packaging applications.	End use Biscuits packaging and coffee bags	<b>74/ 80/ 83/ 90 g/m<sup>2</sup></b>

Rotogravure Flexo Roto offset Cold sealing	<b>Carcoat OB RO</b> One side coated kraft paper, calendered, containing optical brightener. Suitable for UV inks. Reverse side coating suitable for cold sealing.	End use Envelopes for picture cards	50/ 60/ 80 g/m <sup>2</sup>
Rotogravure Flexo	<b>Carcoat Satin</b> One side coated kraft paper, matt finished surface, containing optical brightener. Good smoothness and flex crack resistance. Suitable for flexible packaging applications with matt surface.	End use Biscuit bags with matt surface	80 g/m <sup>2</sup>
Rotogravure Flexo Waxing	<b>Twisting MP</b> One side coated kraft paper, calendered, with high opacity. Excellent tear strength, high opacity after waxing, excellent gloss level. Suitable for waxing.	End use Confectionary, wrapping for sweets and chewing-gum	42/ 45 g/m <sup>2</sup>
Rotogravure Flexo Waxing	<b>Twisting</b> Uncoated kraft paper, highly calendered, with high opacity. Excellent tear strength, high opacity after waxing. Available also in brown colour. Suitable for waxing.	End use Confectionary, wrapping for sweets and chewing-gum	40 g/m <sup>2</sup>
Flexo Waxing	<b>Twisting SO Extra</b> Uncoated kraft paper, slightly calendered, with high opacity. Excellent opacity after waxing. Good dead fold properties. Suitable for waxing.	End use Confectionary, industrial bread packaging	40 g/m <sup>2</sup>
Rotogravure Flexo Lamination (PE/PET/alu) Waxing Extrusion	<b>Emelcar 1 - 5</b> Uncoated kraft paper, highly calendered, with high opacity. Excellent dead fold properties. Good opacity after waxing, high gloss level. Suitable for lamination (PE/PET/aluminium), extrusion and waxing.	End use Flexible packaging, confectionary, e.g. for squared candies	40/ 45/ 50/ 54/ 60/ 67/ 77 g/m <sup>2</sup>
Rotogravure Flexo Lamination Hot melt sealing	<b>Flexocar AM OB 3</b> One side coated kraft paper, calendered, with anti-mould treatment, containing optical brightener. High gloss and smooth surface. Also available without optical brightener. Suitable for lamination on top and hot melt sealing on back side.	End use Soap bars	60/ 70/ 80/ 90 g/m <sup>2</sup>
Lamination Hot melt sealing	<b>Flexcar 1</b> Uncoated kraft paper, calendered, with anti-mould treatment. Good opacity. Suitable for lamination on top and hot melt sealing on back side.	End use Soap bars	50/ 60 g/m <sup>2</sup>
Flexo	<b>Brown Cake Paper</b> Uncoated brown kraft paper, highly calendered. Resistant to grease and high temperatures. Available also in natural colour.	End use Moulds used for cake baking	59/ 80/ 88/ 94/ 115 g/m <sup>2</sup>

Flexo (on back side)	<b>Brown Cake S</b> Uncoated brown kraft paper, calendered, with release treatment. Anti-sticky. Available also in natural colour.	End use Trays and moulds used for cake baking	<b>65/ 95 g/m<sup>2</sup></b>
Slow writing hydro-alcoholic register pen	<b>Diacar TS</b> Uncoated kraft paper, slightly calendered, with special surface treatment. High dimensional stability and controlled ink absorption. Suitable for use as diagram paper.	End use Diagram paper for slow continuous registering	<b>40/ 45/ 50/ 55/ 94/ 102/ 120/ 145 g/m<sup>2</sup></b>
Flexo Rotogravure (on back side)	<b>Trenncar</b> Uncoated kraft paper, calendered, with release treatment on one side. Anti-sticky and resistant to high temperatures. Suitable for protective and anti-sticky applications.	End use Wraps for chewing-gum, sticky candies and yeast for bread	<b>40 g/m<sup>2</sup></b>
